

ESMA Content Strategy Report

Your personalized plan for awareness, trust, and conversion.

Business type: Clinic / Dentist

Content Health Score

39
/ 100

Needs Work

Why this score:

- Your funnel mix is well balanced across all three stages.
- Posting isn't consistent enough yet.
- You don't show enough proof or results yet.

Next actions:

- Commit to a fixed weekly posting schedule and stick to it.
- Collect and post results, case studies, and testimonials.
- Share more behind-the-scenes and authority content.

Your Biggest Bottleneck

Trust Bottleneck

People know you, but they're not confident enough to buy yet. They need more proof that you can deliver.

Fix first: Focus first on proof: show results, case studies, and the way you work so people feel safe choosing you.
